

DAISY CENTRE AND SCHOOL,

CLASS 5 C.R.E ASSIGNMENT 12, JULY 24TH, 2020

The story of JESUS AND PETER.

Peter was one of Jesus' disciples

He loved Jesus.

He was also called the **Rock**

He promised not to deny Jesus but Jesus knew Peter will deny him.

Jesus told him that he will deny him three times. Then a cock will crow.

Life of a Christian in the community

In the community we have both Christians and non-Christians.

In the Bible Christians are the salt of the world.

Christians should not have the following behaviours:

- Stealing.
- Fighting.
- Being unfaithful.
- Lying.
- Abusing people.
- Being full of hatred.
- Being unreliable.

NB Christians should bear the fruits of the Holy Spirit in their lives.

Questions

1. The _____ was another name for Simon peter.
2. Peter denied Jesus _____ times.
3. Christians are _____ of the world.
4. Name three behaviours that a Christian should avoid _____,
_____, _____
5. Outline any two fruits of the Holy Spirit. _____, _____

DAISY CENTRE AND SCHOOL,

CLASS 5 ENGLISH ASSIGNMENT 12, JULY 24TH, 2020

READING

Read the passage below and answer questions

There once lived a poor but kind man called Ogot .His parents had died when he was very young and no relative was ready to take care of him.

One afternoon an old toothless woman in torn clothes came to the village. The proud villagers did not even greet the woman. She begged for food but the villagers only laughed at her. Ogot saw the old woman and felt sorry for her. He invited the woman in his grass thatched house and quickly made some porridge for the old woman with the little flour that he was remaining with.

The woman ate the porridge and thanked Ogot. She revealed that she had been send by the gods to find one kind person in the village and make him rich. The old woman touched Ogot on his shoulders and disappeared. Suddenly Ogot became rich, there appeared cows, sheep, goats and a big house. He lived happily ever after.

Questions

DAISY CENTRE AND SCHOOL,

CLASS 5 MATHEMATICS ASSIGNMENT 12, JULY 24TH, 2020

LENGTH

Subtraction of Centimetres, Metres and Kilometres.

Example

Subtract 2km 350m from 4km 240m

KM	M
4	240
-2	350
<hr/>	
1	890

Explanation

-Since it is impossible to subtract 350m from 240m, borrow 1km leaving 3km.

-Convert the 1km borrowed into metres and add 240m to get 1 240m.

-Then subtract 350m as;

$$\begin{array}{r} 1\ 240 \\ -\ 350 \\ \hline 890 \end{array}$$

-Subtract 2km from 3km to get 1km.

Exercise

1(a) KM	M	(b) M	CM
20	200	50	45
- 14	100	-12	65
<hr/>		<hr/>	
<hr/>		<hr/>	

(c) KM	M
8	200
- 5	400

(d) KM	M
40	500
- 21	800

2(a) KM	M	CM
30	400	80
- 21	200	90

(b) KM	M	CM
37	42	29
- 28	64	78

3. Njeri started a 100m race but fell down when she was 80m 40cm from the finishing point. How far did she run?

4. My father's height is 182cm. I am 132cm tall.

My father is _____cm taller than me.
